Summary

I am an enthusiastic and driven B.Tech Computer Science undergraduate with hands-on experience in programming, web development, and problem-solving. I have developed practical skills in software development and technical implementation. Eager to embrace new challenges, continuously enhance my technical expertise, driving innovation in forward-thinking organizations, and deliver exceptional and my best results. Dedicated to making meaningful contributions, collaborating effectively within teams, and bringing innovation and value to a forward-thinking organization as a fresher.

Education

Kalasalingam Academy of Research And Education, Madurai

Bachelor of Technology(B.Tech) in CSE ,AIML

2022- 2026 | CGPA: 8.77

Narayana Junior College, Nellore

Higher Secondary (12th Grade – MPC Stream)

2020 – 2022 | Percentage: 97.2%

Skills

Technical Skills:

Programming Languages: Java, SQL, HTML, Python(Basics).

Web Development: HTML, CSS

Machine Learning & AI: TensorFlow, PyTorch, Transformers, IDEs.

Problem Solving: Hacker rank, Codechef.

Soft Skills: Communication, Time Management, Teamwork

Languages: Telugu, English

Projects

Jarvis AI (Python, TensorFlow, PyTorch, Transformers, NLP)

Developed an AI-based virtual assistant that performs tasks like chatbot interactions and automation assistance. Designed a modular, scalable architecture for future integration with smart devices. Designed NLP modules, integrated voice recognition, and optimized model performance.

URL Phishing & Email Spam Detection (Python, Machine Learning, Cybersecurity, REST API)

Built a machine learning-based phishing URL and email spam detection system to enhance cybersecurity. Implemented real-time classification using trained models and integrated a secure REST API.

Certifications And Achievements

Certifications:

A NATIONAL CONFERENCE on Smart Food Technology – Participated in Research paper Submission with Food Waste management innovations.

INNOVARC'25 IEEE Certificate – Hands-on experience with AI-driven automation.

BUILD-A-BOT Coding Block Certificate – Developed bot automation techniques using Python.

Achievements :

2nd Prize - A NATIONAL CONFERENCE on Smart Food Technology.
